

# RESTLESS VOCAL BAND EDUCATIONAL PROGRAMS

## Two Day Program + Show

Restless will provide a two-day experience for students that will culminate in a final performance the second evening. Goals for the two-day experience include clinics with school choirs, workshops on a cappella fundamentals (harmony, solo, vocal percussion, arranging, etc.), performance technique, and rehearsal on songs that students will perform with Restless Vocal Band at the big show. This is a great option for schools or districts that want students to have a fully immersive experience in a cappella. These two-day programs are excellent for team building, musical growth or building excitement for a growing music program. The final show can be a stand-alone performance or combined with a prescheduled choir concert.

*The final show is a GREAT way to  
fundraise!*

## Saturday Clinic + Show

A full day spent learning, singing and performing! Restless will spend a Saturday teaching students 2-3 pieces of music to be performance ready by the evening show. Students will also have the opportunity to learn vocal percussion, have a breakaway workshop to focus on solos, design staged choreography, arrange their own a cappella piece and more!

### **Looking for more information?**

All of our programs are completely customizable for each school, district and budget. We encourage school coordinators to work with our education coordinator to create the perfect a cappella program experience.

## School Assembly Performance

+

### Meet and Greet with Classes

A fun way to get the whole school involved, Restless will perform a full show (up to 60 minutes) for an assembly event. This program includes a question and answer session for individual choirs, music classes or interested students. Restless also enjoys sitting in on choir rehearsals and sharing musical performances.
